Our Manifesto

Vision

To become the authentic exporter of reliable and high-quality sheet metal products whilst earning customers' satisfaction and delivering excellence to our stakeholders. Our contribution to achieving quality is guided in the direction of integrity, teamwork, and innovation of our employees at all levels.

Mission

- To reinforce our customers by providing them with superior products and services that help them gain a competitive edge in their respective business markets.
- To sustain our Vision and Mission by constantly indulging in the process of learning, application of modern technology, and synergic business practices.
- To build a pleasant and growth nurturing environment that encourages our employees to be efficient and highly productive, professionally, and personally. We aim to develop diversified markets that provide stability and adequate financials, exposing our employees to numerous opportunities.

Quality Policy

We at Unique Punch Systems Private Limited are committed to achieving total customer satisfaction by supplying quality turned metal components, and meeting the delivery schedules on time every time through continual improvement at all levels of our organization.

Environmental, Health and Safety Policy

- Unique Punch Systems Private Limited as a CNC punched components manufacturer is committed to safeguarding and protecting employee health and wellbeing as well as the local and global environment.
- To compulsorily prioritize the environment, health, and safety concerns under all business processes and strategy making initiatives.
- To identify and comply with all legal requirements in order to adhere to the rule and regulations laid out by the Government of India related to environmental, health, and safety concerns.
- To prevent pollution and reduce waste output in order to use natural as well as man-made resources optimistically.
- Educate and motivate employees to carry out tasks in an environmentally friendly means and to ensure that a continuous development strategy serves as the core of our business goals.
- Encourage an environmentally friendly, safe, and healthy working atmosphere among suppliers and subcontractors.

Our Team

Mr. Chandrashekar K
Managing Director

“The essence of great leadership is influence, not authority.”

Mr. Chandrashekar has been the guiding light at UPS. His values and motives have not just driven the brand to success but also motivated thousands of employees to offer their best. With an educational qualification in Bachelor of Engineering, Mr. Chandrashekar has dedicated himself completely over the past years in order to pave a brighter path in terms of the company’s future.

Our Team

Mr. Rangalakshmish V
Technical Director

“Leadership is the capacity to translate vision into reality with the help of a supportive team.”

Mr. Rangalakshmish V is best known for his commitment to work with integrity and trust. Employees at UPS, clients, and prospects hold a cordial relationship with Mr. Rangalakshmish for they believe in his approach, terms of service, and delivery rate. He aims to help the brand grow sustainably whilst delivering one’s needs. His vision for the company has taken UPS to places unimaginable and wishes to supportively grow in the near future.

Our Team

Mr. Guruswamy K G
Technical Director

“A leader is someone who demonstrates what’s possible.”

Mr. Guruswamy K G has been the superlative support for UPS. His expertise and knowledge have guided the company to achieve milestones and reach greater heights. With an educational qualification in Bachelor of Engineering, Mr. Guruswamy aims to offer a lot more to the company, it’s employees, and clients.

Clientele

GE Healthcare

Awards & Recognition

How We Work?

Receiving purchase orders for new product development

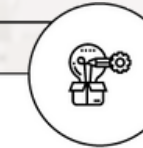

Design for manufacturing rendered

Review check conducted with the customer and changes implemented

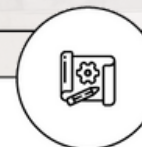

Purchase indent raised in order to procure the materials

Handing over of the prototype drawings to NPD

PFD, CP, and PFMEA procedures take place

Drawing development takes place with extensive research and testing.

Availability of raw materials cross-checked

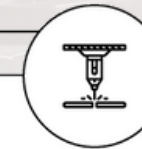

Check-listing the production stages with the appropriate order

Production of samples in the form of CP, PFMEA, PFD, SOP, and other documents in form of per dwg

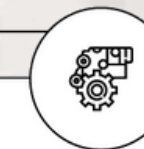

FAI report is processed which if rejected, is re-drafted until approval

Procured parts are sent for finishing

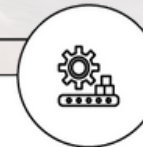

Final FAI reports are generated which get finalized after a series of re-works

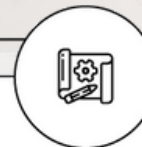

Dispatching the samples for testing

Batch 1 purchase order is re-worked with altered changes

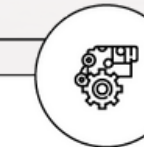

The production team in charge handles the further requirement for faster procurement and delivery

Handing over complete project details to the production team for further procedure

Post acceptance, quality control approval over NPD is granted

Dispatching Batch 1 of samples for further testing

Unique Punch Systems Pvt. Ltd. has always had an eye for sustainable environmental growth through its products and services. It aims to grow progressively in terms of serving its clients and employees while ensuring minimal wastage and maximum recycling. Our materials that are synthesized further that produce wastage are minimized by recycling the same and reusing them in places wherever possible. We take pride in using tools and equipment that emit low or zero carbon emissions. Our processes from all ends are nature interactive and supportive and the goal to contribute sustainably to the planet shall only grow bigger over time.
